

How has my input been used?

In the past, you have told us:

Your problems, issues, and concerns related to I-81
–
What is important to you for our transportation system
–
What you hope *The I-81 Challenge* will achieve
–
Your ideas and visions for our highway, our city, and our region

We have listened and used what you told us to:

Clarify the issues and problems that *The I-81 Challenge* needs to resolve
–
Develop a set of goals and objectives that will guide our process
–
Identify a set of possible future strategies that solve the challenges of I-81, incorporate your ideas, and make progress towards our future goals
